

Germans Continue Their Desperate Attacks on Allies

TO REGAIN HEALTH
CLEANSE THE BLOOD

Their progress, though slow, continues. There apparently has been hard fighting in the south, for the Germans report a series of vigorous sallies from Toul having been repulsed. Along the center comparative calm still reigns. The Germans have been keeping up a heavy artillery fire on the British and French forces entrenched in front of them, but the British accounts say little damage has been done.

REAL WORK STILL BEING DONE ON THE TWO WINGS
The real work is being done on the two wings, and the troops in the center, who have had much fighting, are being given a respite until the moment comes when to move again. This, of course, depends on the failure of the outflanking operations.

The German attack on Antwerp, which does not appear serious thus far, apparently has not had any effect on the Belgian forts of Liège, Wavre and Wavre St. Catherine's. The Belgians say the forts are intact, and that the Germans have been driven off with heavy losses to their aid. Operations between the Russians and the Austrians and Germans grow in interest. These armies are fighting along a tremendous line, extending from the neighborhood of Cracow, in Galicia, along the frontiers of Poland to East Prussia, almost to the Baltic Sea. There is no news from the southern front, but the Germans and Austrians, instead of waiting on the line between Czerstew and Kattowice, the Russians have advanced further into Poland. Their outposts have been reported as far east as Piotrkow (ninety miles southwest of Warsaw, in the north, and Stompa (thirty-two miles south southeast of Kielce), in the south.

A big Russian army is gathering to the south, and a great battle probably will be fought in Poland instead of on the borders of Poland and Rumania.

In the north, if the reports are to be believed, the Russians seem to have checked the German invasion from East Prussia and have compelled the Germans to retrace their steps except in the right wing, which is still fighting around Gumbinnen.

The latest report on the movements of the German Emperor is that he has left Breslau, from which point the invasion of Poland was launched.

GENERAL IMPRESSION FAVORABLE TO ALLIES
PARIS, October 3, (11:14 P. M.).—The official communication issued to-night says: "There is no new detail to announce. The general impression is favorable."

WEST FLANDERS NOW IS FREE OF GERMANS
LONDON, October 3, (7:15 P. M.).—A dispatch to the Reuter Telegram Company from Amsterdam says that West Flanders, the westernmost province of Belgium, is now free of Germans.

HEAVY REINFORCEMENTS SAVE GERMANS FROM ROUTE
NEW YORK, October 3.—Dow, Jones & Co., a Wall Street news agency, put out the following dispatch in its news sheet: "BORDEAUX, October 3.—Minister of War Millerand declared to-day that only the steady arrival of heavy reinforcements had averted disaster for the army of General von Kluck and the entire right wing of the German army. He said that early in the week the forces of General von Kluck were in the region of the Somme, and that they had been forced to withdraw from advanced positions to a point northeast of St. Quentin, by a raid of French troops."

General von Kluck, Minister Millerand said, had called for reinforcements, but the arrival was delayed, and they arrived only in time to prevent a general retreat of the German troops. "General fighting continues about Roye," the Minister of War continued, "and the Germans are attacking fiercely. They are making desperate efforts to capture Roye, which they consider an important point. The Germans are being steadily reinforced. They must keep the movement against them or retreat. The menace of a steady pressure against their lines is becoming terrible."

JAPANESE BOAT SINKS AFTER STRIKING MINE
TOKYO, October 3.—An official announcement states another Japanese mine-sweeping boat at Kiauchau has been sunk after striking a mine. The casualties are given as four killed and three wounded. The mine drifter was known as the Kiyomaru, and was sunk by Laoshan Bay.

The German forts and ships, it is announced, are constantly shelling the Japanese army, which is slowly preparing for the big assault on Tsingtau, the German stronghold.

A German aeroplane from Tsingtau has made two unsuccessful attempts to attack Japanese warships. Japanese aeroplanes went in pursuit of the German air craft, and were subjected to bomb fire.

ATTITUDE OF KING CHARLES OF RUMANIA
LONDON, October 3.—In a dispatch from Paris the Post's correspondent relates that a signed statement, attacking the attitude of King Charles of Rumania has been given out by "Gian Jonnesco, nephew of the Prime Minister of Rumania, and secretary of the Rumanian legation in Paris. M. Jonnesco says, in part: "From the commencement of this European conflict the Rumanian people have been hostile to Germany and Austria. This hostility is pushing the people to drastic action. The cry is for a greater Rumania, and the liberation of our brothers in Transylvania. Undoubtedly the situation has placed King Charles in a dilemma, for he already has made his choice. His duty as a king is to free his people and his duty as a Hohenzollern. The latter proved too dear to his heart; he is serving his caste and will do so until his death."

When Russia proposed to King Charles that he occupy Transylvania and Bukovina, he refused, declaring his troops were needed to guard the frontier. To-day Bukovina, which is just to the east of Rumania as Transylvania, is occupied by Russian troops and has been declared a Russian province.

This policy of King Charles will give him in history the role of a traitor to the interests of his country, although he is a hero in his attachment to the Hohenzollern and Hapsburg traditions.

But his policy is persisted in it will mean that the Rumanians in Transylvania, will shortly be delivered from the Austrian yoke by Russia and henceforth incorporated in the Russian empire."

NO NEW ATTACK MADE ON BELGIAN FRONT
LONDON, October 4 (2 A. M.).—The Antwerp correspondent of the Ex-

M. Millerand, the French War Minister, and his aides studying war maps and reports from the front.

change Telegraph in a message dated Saturday night, says:

"No new attack has been made on the Belgian front to-night. The situation this morning remained the same as indicated in the official communication given out Friday night."

BATTLE OF AISNE LONGEST

WORLD HAS EVER KNOWN

[Special Cable to The Times-Dispatch.]

LONDON, October 4.—The London Times in its summary of the news of the war says:

The battle of the Aisne has now lasted longer than any battle the world has ever known. This is its twenty-third day. The Russians had endured the siege of Mukden twenty-two days before they gave way to the Japanese armies.

The contest on the left wing of the allies is still at a crucial point. Paris, mentioned last night, the continuation of violent action, in which the two armies have been engaged since Friday, in the region of Roye.

Here the enemy is still making desperate efforts to break even, at least in the attacks that threaten to drive in his right wing.

The German report records an advance of German troops in the Argonne, but its language is ambiguous. "These troops," we are told, "have gained ground in a southerly direction, but they have not held it."

STRENGTH OF GERMAN FORCES UNDER ARMS

LONDON, October 3 (7 P. M.).—In Swiss military circles, according to a Central News dispatch from Bern, it is estimated Germany now has actually under arms twenty-seven army corps of her regular troops and an equal number of reserves. Of them, twenty-four army corps are in France, six in Belgium and Alsace, thirteen in East Prussia, and eleven between Bern and Cracow.

There are in addition, the dispatch adds, what is assumed to be 1,500,000 men of the Landsturm and volunteers serving in the interior, while 600,000 fresh recruits are reported to be in training sufficiently advanced for them to be ready for service in November.

KAISER'S LAST MESSAGE TO TSINGTAU GARRISON

LONDON, October 3.—A Central News dispatch from Shanghai quoted the following as the Kaiser's last message to the Tsingtau garrison:

"God be with you. I shall bear you in remembrance in the imminent hard struggle, in which I hope you will defend your position to the last man."

GERMANS EVACUATING RUSSIAN TERRITORY

LONDON, October 3 (10:10 P. M.).—A Petrograd dispatch by way of Rome to the Central News says:

"The Germans are evacuating Russian territory. Whole regiments have been drowned in the Niemen River, and have lost their siege artillery. The Emperor, it is declared, escaped with difficulty."

SEVEN BRITISH STEAMERS SUNK BY GERMAN CRUISER

Official Statement Issued in Berlin Claims Successes Against Enemy Fleet on the Atlantic.

LONDON, October 3 (9:40 P. M.).—The following official statement issued in Berlin has been received here by wireless:

"The German cruiser Karlsruhe has sunk seven British steamers in the Atlantic."

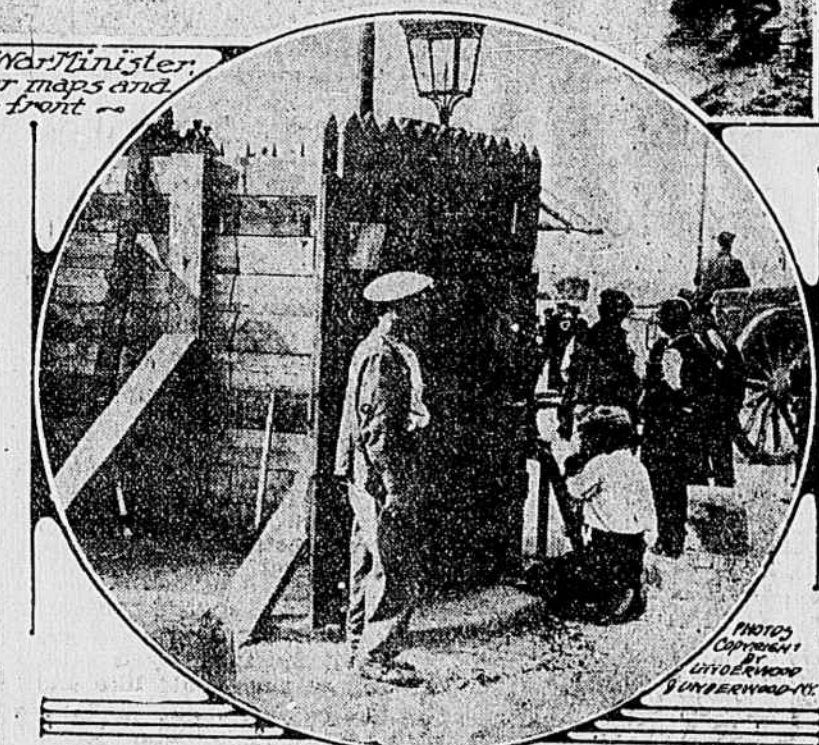

"A letter found on a Belgian officer captured by the Germans, contained the following:

"When we re-enter Brussels, we will

"It is stated from Vienna that the Austrian advance against the Serbians is proceeding slowly but favorably. Serbian battalions were destroyed during a revolt among the Moslems. Twenty thousand Albanians have marched against Skutari (a town in the Vilayet of Kosovo, 100 miles northwest of Salonika) and have demanded the surrender of the town."

PEOPLE IN RICHMOND ARE AMAZED

No medicine has ever caused such amazement in Richmond as the simple mixture of buckthorn bark, glycerine, and castor oil, known as Adler's Elixir. This remedy drains such surprising amounts of foul matter from the body that it is known as the most thorough bowel cleanser sold. Adler's Elixir acts on both the upper and lower bowel, and JUST ONE DOSE relieves constipation and gas on the stomach almost IMMEDIATELY. The T. A. Miller Company, druggists, 519 East Broad Street.—Advertisement.

Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, the heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is

HEADACHE, COLD OR SOUR STOMACH, REGULATE YOUR BOWELS—10 CENTS

Sick headaches! Always trace them to lazy liver; delayed, fermenting food in the bowels or a sick stomach. Poisonous, constipated matter, gases and bile generated in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, sickening headache. Cascarets will remove the cause by stimulating the liver, making the bile and constipation poison move on and out of the bowels. One taken to-night straightens you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular, and make you feel bright and cheerful for months. Children need Cascarets, too.—Adv.

MUCH SUFFERING IN TRENCHES

British Officers Visit Paris and Purchase All Available Supply of Warm Clothing—Thick Mists Unendurable.

PARIS, October 3.—After having tried in vain to break at Tracy-le-Mont and then at Roye, the strong line of the allies, the Germans have renewed their fierce attacks between Roye and the region of Arras. However, their latest efforts have had no better results.

The French, in an official statement, frankly admit a slight falling at the left of one of their detachments. On the other hand the allies have not only successfully opposed the terrific onslaughts of the enemy at other points, but have made gains as well.

The allies continue to pour in their troops at points where they are needed to replace those worn out by the hard fighting or in filling gaps in the ranks. The French line, it is roughly estimated, now numbers 750,000 men.

Lieutenant-Colonel Roussel, military critic of the Petit Parisien, in reviewing the situation, says:

"It is now on our left that the battle takes on its most imposing proportions. When one considers that after hardly a month of fighting the enemy was nearly at the gates of Paris, it can be seen instantly how much territory we have gained on the Germans who counted on crushing us."

"The enemy has brought to its right large forces, hoping to break our offensive, and at the same time it returns to attempt the passage of the

Mouse. It is making thus a visible effort on two wings, and at the same time guarding on the rest of the front in an expectant attitude. This is the old tactic of flanking, which reappears unfortunately for it has no more the merit of secrecy than that of surprise. We know it too well to have it still imposed on us.

Troops in the trenches are suffering severely in the chilly nights. British supply officers have visited Paris and purchased all of the available supply of warm clothing, furs, comforters and sweaters. Each man in the field has been supplied with a blanket, a waterproof sheet and an overcoat, but the districts where the fighting is proceeding are subjected to thick mists, making a long sojourn in the open air unendurable.
